**Message from Brian Vedder....**

Dear Valued Customer,

I have recently joined Atlas Industrial Electric, a reputable company doing business for many years. I have worked with Atlas and their team of experienced professionals for a long time. Now that the transition is complete, I am ready to resume operations and continue to serve you. Under Atlas, you can expect the same quality electrical service, plus additional turn-key capabilities which include equipment installation, rigging, steel fabrication, service and maintenance. My contact information and address will remain the same with slight change to my email address.

Sincerely,

Brian Vedder, Operations Manager Fort Wayne
